Education

Jun 2019 – Present **Master of Science, Electrical Engineering**, *Portland State University*, *Portland, OR.*
GPA: 4.00, *Expected: Jun 2021*

Sep 2017 – Jun 2020 **Bachelor of Science, Electrical Engineering**, *Portland State University*, *Portland, OR.*
GPA: 3.97, *Summa cum laude*

Work Experience

Dec 2016 – Present **Production Specialist III**, *Micro Systems Engineering Inc.*, Lake Oswego, OR.
- Certified for all back-end production processes; more certifications than anyone in area.
- Team lead for back-end tasks, designated to assign work, and resolve communication issues.
- Introduce new production processes, workflow changes, and training through various engineering projects.
- Work on LabVIEW software changes for production imaging cell, including documentation and code reviews.

Jun 2015 – Dec 2016 **Crew Member**, *Wendy's Restaurant*, Portland OR.
- First job after high school to pay for college. Strong focus on communication and teamwork.

Skills

Languages C++, C, Rust, LabVIEW 12.0, ARM Assembly, Matlab, SystemVerilog

Programs Git, Linux (Ubuntu), Windows, LTspice, Cadence Virtuoso, Visual Studio, MS Office, SAP

Hardware Soldering, Oscilloscope (Tektronix/Rigol), Function Generator (Tektronix), Power Supply

Projects

Jan 2020 – Jun 2020 **Senior Capstone | Galois Inc.**, *Rust, C++, Arduino, Kind2, Lustre, PHP, SQL, Apache2.*
Modified Kind2 Lustre to Rust compiler to generate embedded Rust code from a verifiable language. Streamlined the process of creating verifiable embedded controllers. Found Rust PID controller to have identical real-world performance to controller written in C++. Wrote and tested a Fuzzy control on a real-world system.

Oct 2019 – Jan 2020 **Module Imaging Cell | MSEI**, *LabVIEW 12.0, log4net.*
Implemented software changes to automated production cell software. Introduced log4net logging to SQL, data collection to a digital factory, and changes to the state machine that reduced chances of collision and product loss.

Apr 2020 – Jun 2020 **MIPS-lite Simulator | ECE 586**, *C++, Git.*
Designed a 5-stage MIPS simulator in C++ and tested output with generic memory image provided by professor.

Sep 2019 – Feb 2020 **CMOS Standard Library Design | ECE 526**, *Virtuoso 6.1.8, ADE, OCEAN/SKILL.*
Designed standard library components using Cadence Virtuoso layout and ADE tools. Wrote scripts to simulate and measure output values with different temperatures, inputs voltages, and input rise times.

Sep 2019 – Dec 2020 **Class AB Audio Amplifier | ECE 521**, *LTspice, Soldering, Oscilloscope.*
Designed a complimentary symmetry audio amplifier using mostly discrete BJTs to drive a 10W speaker. Soldered, designed and tested using homelab equipment.

Sep 2019 **Interactive IMU Cube | ECE 411**, *C++, Soldering, MS Project, Git.*

Jun 2019 **ASIC Design | ECE 581**, *SystemVerilog, Design Compiler, Git, Linux.*

Sep 2018 **ARM Sitara AM335x UART / I2C | ECE 372**, *ARM Assembly, C.*
